Optimised Investments

Spiro[®] Service Agreement

Which serves to optimise your investment, prevent breakdowns, and make best usage of your Spiro[®] machine to continuously achieve a high output quality.

THE *Original* SINCE 1956

Original Spare Parts

We understand that parts have to be on time and correct.

To serve our customers in the long run, we have original parts stocked in our warehouse in Switzerland for at least 20 years. We know that our parts will always fit Spiro® equipment as we still have the original drawings for everything we have ever made. Spare parts have to arrive on time and they have to be of the best quality. That demands a well structured organisation. That organisation is Spiro®.

BENEFITS

- » Original parts produced by Spiro®
- » The right spare parts at the right time, for the right price
- » Stock from warehouse in Switzerland
- » Fast and reliable delivery service
- » Replacement components for obsolete parts

Equipment Care Service

Inspection, Service, Repairs, and Upgrades.

Spiro International S.A. pursued endeavours to enhance the value for our Spiro® machine users. Our Equipment Care Service encapsulates the inspection, service, and any necessary repairs of your Spiro® machines. Moreover, devoted to research, we have created various upgrade solutions on our Tubeformer, Plasmacutter and Stitchwelder models. Discover today the possibilities to increase your production capacity, functionality and improved material savings.

BENEFITS

- » Safety and accessibility
- » Functionality check
- » Overall condition inspection
- » Scheduled down-time
- » Replacement of worn parts
- » Thorough documentation of service performed

Training and Support

Take care of the people behind the machines as well!

Spiro® believes that training is an essential part of our valued services. We fully train your employees on how to operate your Spiro® machines as efficiently as possible. We can also customise training that is not in conjunction with the delivery of your Spiro® equipment – perhaps you have replaced staff or updated your production line? We will be there to share the knowledge you need to get the most from your investments.

BENEFITS

- » Highest quality training
- » Training programs created for operators and/or maintenance personnel
- » Training certificate and diploma
- » Training in operating, maintenance and trouble shooting
- » Testing following completed training

Spiro® Service Agreement

Capture all in the Spiro® Service Agreement.

The Spiro® Service Agreement guarantees an annual inspection on your Spiro® machines, as well as a recommendation on how to optimize your investment through a service, repair, and/or upgrade with original Spiro® parts. In addition, your operators can profit from tips and feedbacks with respect to the best usage and maintenance of your Spiro® machinery to prevent breakdowns and continuously achieve a high output quality.

BENEFITS

- » Annual inspection visit
- » Special discount on spare parts and work
- » Warranty on spare parts
- » Priority service on breakdown
- » Condition report on your machine
- » Telephone support free of charge
- » Certificate certified Spiro® producer

We welcome you to visit our demonstration centre to see the machines in action.
